

Play and discover VIC

in a
different
way !

What do we propose?

HI TECH VIC is a new way to discover the city, a fun activity turns the city into a large game board in which to play, interact, run, move around alongside your team... all of it geared towards the strengthening of ties between people and the fostering of communication.

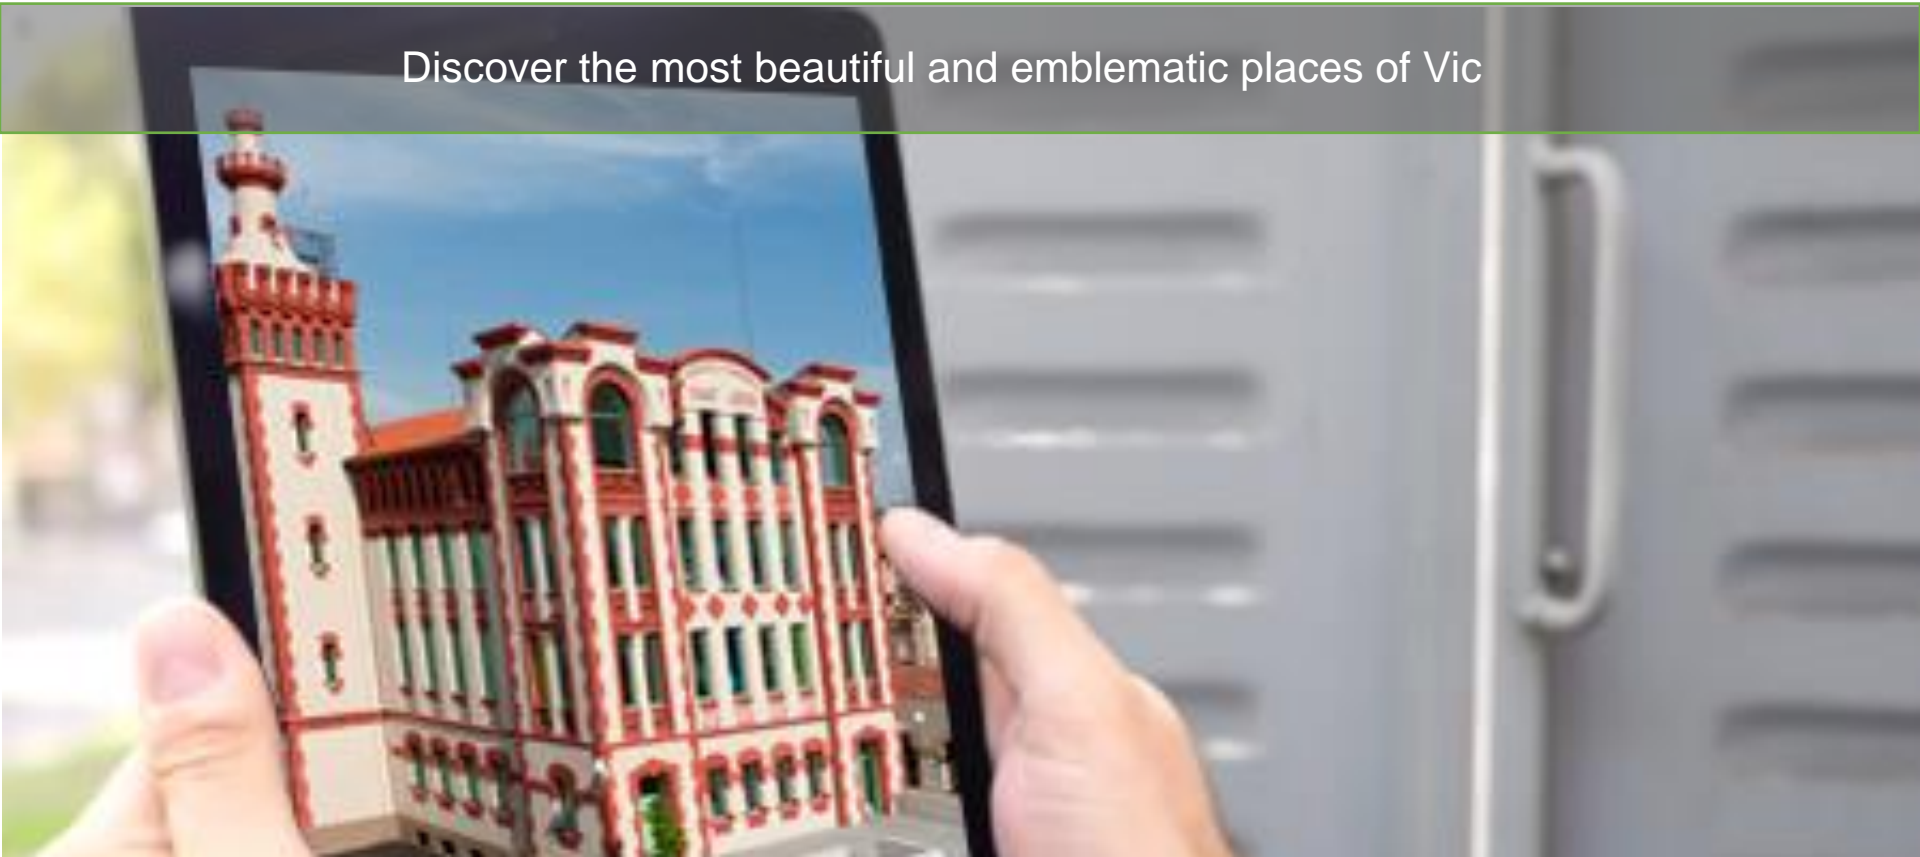

How does it work?

Organized by teams and following a route marked by software, participants will have to answer questions, face the most fun challenges and feel new experiences, while discovering the streets of Vic.

Discover the most beautiful and emblematic places of Vic

Teams will have to test their skills by creating a strategy that will lead them to get the maximum points.

CULTURE GASTRONOMY SHOPPING CURIOSITIES

This new app allows the teams and the organization:

Locate teams in real time

Send and receive message

Know the classification in each moment

Answer questions

Report clues

Play videos

Take and send pictures

Settings

All year. Pre-registration.

1 to 3 hours.

From 20 participants.

Vic.
